# Satterley Honeywood Sales Office

## Digital Map Tables

Following a successful first year trialling a touchscreen digital map table at its Heron Park sales office, Satterley commissioned Yap! Digital Signage to upgrade the two static map tables at its Honeywood sales office to touchscreen digital versions.

Popular with Satterley's sales teams due to the digital technology's capacity to offer more information to its customers, Yap! Digital Signage designed and fabricated two leaf shaped map tables, incorporating 65" touchscreens.

The digital touchscreens feature some great new details including 'pinch to zoom' and pop-up information. These new features were added to previously successful content i.e. lot pop-up information, galleries and a 'register your interest' form that links to Satterley's mailing list.

"... The project was delivered on time and we think it looks amazing!"
